

Project Design (CAN ALSO VIEW FROM LINK ABOVE YOU MAY COMMENT ON EITHER)

Brushing and Linking Functionality

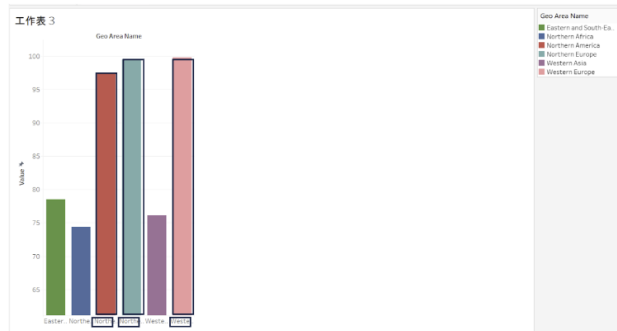

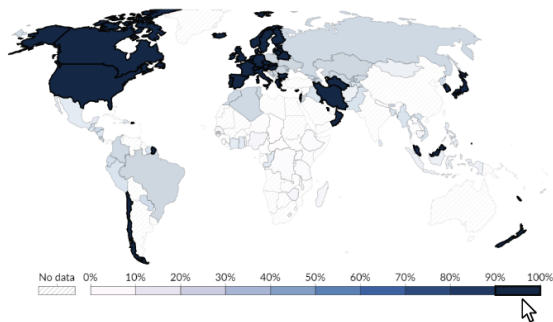

Brushing and Linking Functionality

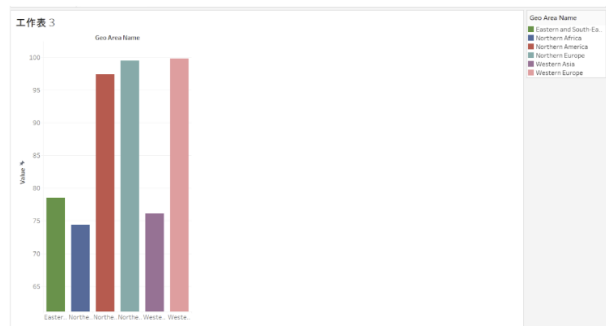

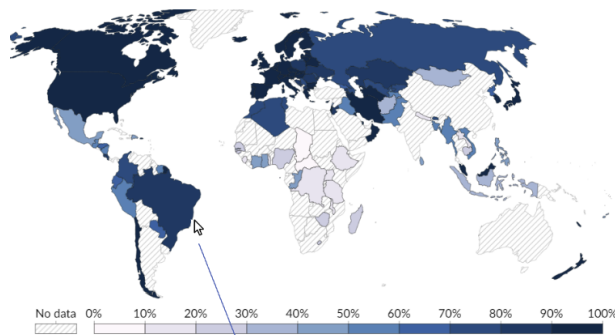

When putting your cursor on one section on the bar, the corresponding region will show up, and the linked bar chart will show the corresponding bars

Brushing and Linking Functionality

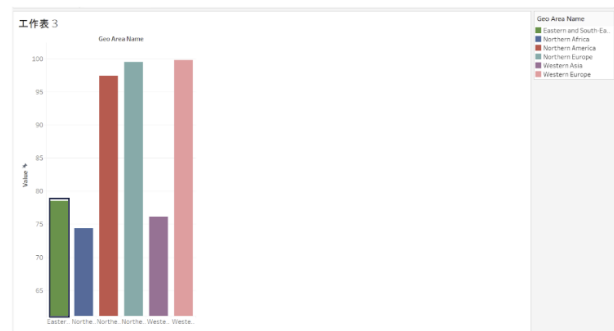

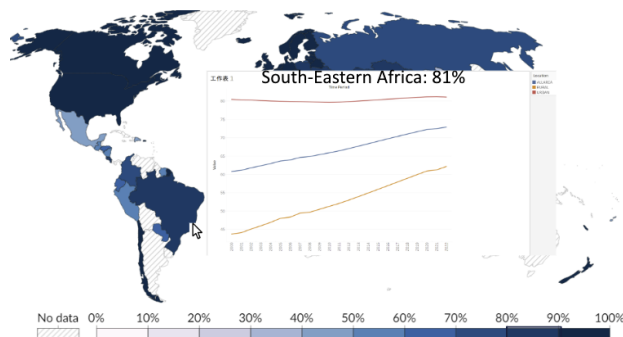

Detail On Demand & Brushing

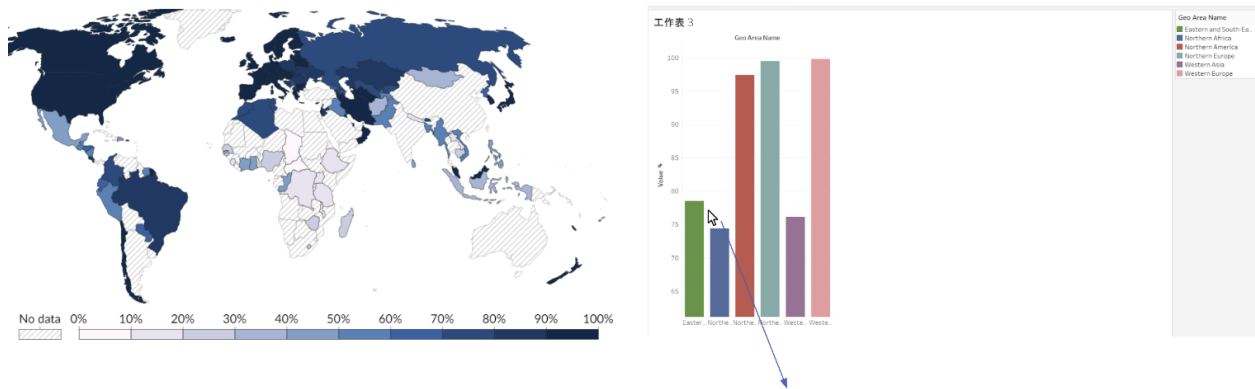

When moving your cursor onto a region in the map, the corresponding section on the bar will be highlighted, and a detailed line chart will show up beside the cursor to demonstrate detailed data (rural, city, all area) of that region

Detail On Demand & Brushing

Detail On Demand & Brushing

Same thing happens when moving your cursor onto a bar in the barchart, the corresponding region on the map will be highlighted, and a detailed line chart will show up beside the cursor to demonstrate detailed data (rural, city, all area) of that region

Detail On Demand & Brushing
